## WORK EXPERIENCE

### GROWTH STUDENT – LOS ANGELES, UNITED STATES

**Business or Sector** Education | **Website** <https://www.growthstudent.com/>

#### CEO – 03/17/2021 – CURRENT

Growth Student is a company that I started in 2021 in France, now located in the US, after passing my first year of medicine during covid, and had mental break down like many students. The main aim is reducing the stress that affects 50% of students worldwide, all science based (put what's on pitch deck), by bringing a platform offering three different axes :

We are 3 international founders, myself as CEO & CSO (Chief Science Officer working with psychologist & PhDs), Fred which is an American living in Los Angeles as CMO & CFO, Sendama which is Indian as CTO & COO, all of them I met through my worldwide experiences.

I'm managing a team of X peoples around the world by side of my current medical studies with the help of my co-founders, and currently got X users worldwide, and a company valuation at X million dollars.
